

Allen-Bradley® Equivalent Terminal Blocks

The ASI1492 series of IEC terminal blocks is the first terminal block series that is totally compatible with manufacturers such as Allen-Bradley®. The ASI1492 terminal blocks feature the same quality design features and materials of the popular 1492 series with added improvements including nickel plated copper alloy metal bodies and plated high tensile alloy screws. Careful attention to detail has been given to this product family so that accessories are interchangeable and the costs associated with using another brand are eliminated.

One of the added features with the ASI1492 series terminal blocks along with others of similar spacing, is the ability to use a low-cost plug-in jumper.

The ASI1492 series meets international approvals including UL and cUL and all products are RoHs compliant.

A short cross-reference is shown below while a more complete one that can be found at www.asi-ez.com or by calling ASI toll free at 877 650 5160.

ASI Type	Allen-Bradley®
ASI1492J3	1492-J3
ASI1492J4	1492-J4

Terminal Width 5mm

ASI1492J3

Terminal Width 6mm

ASI1492J4

Specifications				
Wire range, AWG	28-12		28-10	
Current Rating	25		35	
Voltage Rating	600		600	
Dimensions (L x H) mm	60 x 39.5		60 x 39.5
