

## MarkinGenius® Thermal Printer

Part Number:

GM990715- MarkinGenius® Universal Thermal Printer

Features:

High resolution  
Thermal Transfer Technology  
Windows® based software  
Prints in black or over 4,000 colors  
Prints True Type Fonts

If you have any questions, contact ASI toll free 877-650-5160

The MarkinGenius® is a high-speed desktop printer that can produce printed labels almost 15 times faster than a traditional pen plotter system. It uses thermal transfer technology to produce labels for terminal blocks, wires, cables, panel switches, pilot lights, name plates and complex equipment labels. The clean, noise free operation permits the use in office environments, without the set-up problems associated with ink and pens.

- *Easy to use software*
- *Complete system for marking terminal blocks, wires, cables, nameplates and switch plates*
- *Zero maintenance, no pens and no ink*
- *15 times faster- print 1000, 8 character markers in under 7 minutes, while pen plotters print in 1 hour*
- *Print Clipart images, drawings and bitmaps down to very small dimensions*
- *Operates quietly without pens or ink*
- *Economical printer ribbons are capable of printing up to 150,000 MG-TPMF-4x10mm Cable tags*

## Other **ASI** Innovative Quality Products

- Terminal Blocks
- Miniature Circuit Breakers
- Sensors
- Sensor and Solenoid Cables
- Sensor Distribution Boxes
- Signal Conditioners
- Power Supplies
- High Density Relays
- AC Power Outlet Modules
- Complete Rail Assemblies
- DIN Rail Cutters
- Tools and Ferrules
