

Sub-Miniature Terminal Blocks

The sub-miniature DIN rail mounted terminal blocks address the need for both high density wiring and a compact design that saves space in all directions. These small terminal blocks are available in both screw clamp and spring clamp versions. Modular in design, they snap mount onto the mini 15mm standard DIN rail. Numerous accessories make them an excellent wiring alternative where space is an overall concern.

Terminal width .16" (4.2mm) Wire strip length .32" (8mm)

Terminal width .24" (6mm) Wire strip length .32" (8mm)
