

TERMINAL BLOCK LABELS / MARKERS

Quick Marker Strips

Pre-printed or blank, the SNZ quick marker strips are ideally designed to fit blocks of certain widths. The entire strip of 10 markers can be installed at the same time to 10 terminal blocks, reducing labor and installation time.

LABEL TYPE	TERMINAL BLOCK
SNZ/4	RN.1
SNZ/5	CBD.2 and 5mm types
SNZ/508	VPC2.5 5.08mm blocks
SNZ/60	6mm - 6.2mm blocks

Universal Marker Strips

The CNU/8 marking strip is pre-printed in black indelible ink or blank and can be used to label most terminal blocks. The marker is 5mm wide and 8mm high, and is inserted onto a terminal block one label at a time. The CNU/8 marking strip comes in a card of 100 labels.

Note: The SHZ series of markers are used with the spring clamp terminal blocks, HMM and HTE.

TYPE No.	100 LABELS MARKER No.	CATALOG No.	100 LABELS MARKER No.

Custom Marker Strips

By completing the custom marker order form a variety of custom markers can be ordered to meet the labeling requirements of any application. Both alpha and numeric characters can be printed on the marker based on your requirements.

Marking Pens

The CNU and SNZ blank markers can be hand-labeled using the marking pen; available in either black or red.
